Critical Care Flight Paramedic – Aviation Career with Search & Rescue Services Limited

Whakatauki

Iti rearea, teitei kahikatea ka taea. Tihei mauri ora.

This proverb tells us that the Rearea, a tiny bird, can reach the top of the tallest tree and breathe the breath of life, meaning - It is not size, strength or power that determines the heights of our success, but our commitment to excellence and perseverance.

Who are we?

Search and Rescue Services Limited (SRSL) operate 8 Bases with a fleet of 10 BK 117's and one H145 T2 covering the Central and Southern North Island of New Zealand. You will join a whānau family of enthusiastic and experienced Pilots, Crewmen and Critical Care Flight Paramedics who provide an essential life-saving service to our local communities.

Our role encompasses providing the highest level of clinical care to many of our most vulnerable communities within Aotearoa New Zealand, and as such we are committed to the principles of the Treaty of Waitangi and improving health equity and access particularly for the many Māori communities we serve.

As a dedicated government contracted EMS Helicopter provider, we operate on a 24/7, 365-day basis. Flexibility is needed to meet this requirement and you will have to commit to working both 24-hour shifts (on an on-call basis) and 12 hour shifts on-site.
